

# Armonia Soft

Armonia Soft is the refreshed version of the historical Armonia model: it is the perfect solution for all those locations with medium use and coffee consumption: it is able to deliver an average daily consumption up to 200 cups.

The user-friendly interface is completely updated: large back-lighted buttons along with a total new look mark out an elegant and functional design. Armonia Soft could be combined with A01 add-on-units line (fridges and cup warmer) to deliver at any time a wide array of delicious products as espresso, cappuccino, café americano and hot chocolate.
